WHERE CURIOSITY BECOMES CREATION

INDEX

1. Introduction
2. Objective
3. Eligibility
4. Registration
5. Competition Format
6. RULE BOOK (Includes allowed languages and general rules)
7. Evaluation Criteria
8. Scoring System
9. Disqualification Rules
10. Result Declaration
11. Organizer's Rights
12. Prizes

1. Introduction:
A unique programming challenge where participants must write code without executing it or viewing any output during development. It tests syntax accuracy, logic clarity, and coding confidence.

2. Objective:
To improve coding accuracy, syntax knowledge, and logical thinking while encouraging the writing of error-free code on the first attempt without trial-and-error.

3. Eligibility:
The competition is open to all students (Diploma, UG, or PG) as an individual participation event only.

4. Registration:
Pre-registration is mandatory with a fee of 200/-. Seats are limited based on lab capacity, and each participant is assigned a unique ID.

5. Competition Format:
The event lasts 60 minutes and includes 1-2 programming problems.

6. RULE BOOK:

- Allowed Languages: C, C++, Java, or Python.
- Coding Rules: No compilation or execution is allowed during the coding phase. Participants must use the provided IDE/editor.
- Prohibitions: Internet access, mobile phones, and external help are strictly prohibited.
- Post-Competition: Code will be compiled and executed by judges after time ends.

7. Evaluation Criteria:
Based on the correctness of output after execution, the number of test cases passed, code accuracy (syntax errors reduce scores), and the completeness of the logical approach.

8. Scoring System:

- Full marks: Awarded for a correct solution.
- Partial marking: Given for logical correctness despite minor errors.
- Zero marks: Given for compilation errors.

9. Disqualification Rules:
Participants will be disqualified for running code before the allowed time, plagiarism, using unfair means, or misbehavior.

10. Result Declaration: Results are determined by the maximum test cases passed and least errors. In the event of a tie, the time taken will be the deciding factor.

11. Organizer's Rights: Organizers reserve the right to modify rules, change difficulty levels, and disqualify participants for misconduct.

12. Prizes:

- **First Prize: 3000/-**
- **Second Prize: 2000/-**
- **Third Prize: 1000/-**
