1.8 Prizes
1.9 Outcome
1.10 Conclusion

1.1 Description:
AI Hackathon & Pitching is an innovation-based technical event where participants develop Artificial Intelligence solutions for real-world problems. Teams will design, build,and present their ideas in front of judges, focusing on creativity, feasibility, and practical implementation.

1.2 Team Size:
3-5 members

1.3 Registration fees :
Rs. 250/-

1.4 Duration:
6 hours

1.5 Rules:

- Participants can form teams of 3 to 5 members.
- Each participant can be part of only one team.
- The registration fee is non-refundable.
- Multidisciplinary participation is encouraged.
- All team members must be present in the allocated
- area during the event.
- All work must be created during the hackathon.
- Teams must present their solution in the form of a
- prototype.

- Projects must align with the given hackathon themes or problem statements.
- Problem statements will be given on the spot.
- Teams can work on any project within the given problem statements , following event guidelines.
- The hackathon will be of 6 hours and time limit that must be followed.
- The use of pre-existing code or projects is not allowed, except for open-source libraries or frameworks.
- All code developed during the hackathon must be original work of the team.
- Participants cannot use code or assets created by others without proper permissions or licenses.
- Teams may seek help from mentors or organizers, but cross-team collaboration is not allowed.
- Teams must submit their project before the designated deadline.

- Submission must include project description, source code, and presentation and Git repository link (Submission of Git Repository is mandatory !).
- Late submissions may result in penalties or disqualification.
- Organizers may conduct code validation to ensure compliance with rules.
- Each team must present their project to the judging panel.

- The presentation should demonstrate functionality, features, and innovation. 22.
- Judging criteria will be communicated before the event and may include innovation, technical implementation, user experience, scalability, and relevance to the theme.
- The decision of the judges will be final.
- Participants must follow ethical practices and fair play.
- Any form of cheating, plagiarism, or unfair practices will result in immediate disqualification.
- Participants retain full ownership of their intellectual property. Organizers may request to use project details for promotional or showcase purposes.
- Teams have to share their projects publicly after the hackathon (e.g., GitHub).

- Participants must follow a code of conduct that promotes respect, inclusivity, and professionalism.
- Harassment, discrimination, or inappropriate behavior will not be tolerated.
- The hackathon will offer prizes for First, Second, and Third positions only.
- No prizes will be awarded based on individual problem statements.
- Prizes will include cash rewards.
- Any disputes will be resolved by the organizers and judging panel, and their decision will be final.

- **1.6 Procedure:**
- Teams are formed and briefed.
- Problem statement/theme (optional) is given.
- Teams brainstorm and finalize their idea.
- They build a basic model (idea, features, business plan).
- Prepare a pitch deck.
- The final presentation is given to judges.

1.7 Judging Criteria

- Innovation & originality
- Feasibility of idea
- Presentation skills
- Problem-solving approach
- Business model clarity

1.8 Prizes:

- 1st Prize: Rs. 20K
- 2nd Prize: Rs. 15K
- 3rd Prize: Rs. 10K

1.9 Outcome:

Participants develop entrepreneurial thinking, teamwork, and presentation skills.

1.10 Conclusion:

Startup Sprint is a dynamic and inspiring event that transforms ideas into impactful solutions while fostering innovation and creativity.
