VIBE CODING

Offical Event Rulebook

AVISHKAR '26
WHERE CURIOSITY BECOMES CREATION

INDEX

1.1 Description
1.2 Team Size
1.3 Registration Fees
1.4 Requirements
1.5 Rules
1.6 Procedure
1.7 Judging Criteria
1.8 Prizes
1.9 Outcome

1.1 Description:

Vibe Coding is a unique coding event where participants solve problems or build small projects in a fun, creative, and stress-free environment. Instead of strict competitive coding, participants code with music, themes, or random challenges to maintain a “vibe”. The focus is on creativity, innovation, and enjoying the coding process.

1.2 Team Size:

- Solo Participation

1.3 Registration fees :

- Rs. 100/-

1.4 Requirements:

- Laptop
- Coding software/environment
- Internet connection

1.5 Rules:

- Participants can participate individually (solo participation only).
- Each participant can register only once.
- The registration fee is non-refundable.
- Multidisciplinary participation is encouraged.

Participants must be present in the allocated area during the event.

- All work must be created during the competition.
- Participants must present their solution in the form of a working project or prototype.
- Projects must align with the given competition themes, prompts, or challenges.
- Participants can work on any solution within the given problem statements, following event guidelines.
- The competition will be of 4 hours, and the time limit must be strictly followed.
- The use of pre-existing code or projects is not allowed, except for open-source libraries, frameworks, or AI tools permitted by the organizers.
- All code and creative output developed during the competition must be original work of the participant.
- Participants cannot use code, assets, or generated content from others without proper permissions or licenses.

- Participants may seek help from mentors or organizers, but collaboration with other participants is not allowed.
- Participants must submit their project before the designated deadline.
- Submission must include project description, source code, presentation, and Git repository link (submission of Git repository is mandatory).

- Late submissions may result in penalties or disqualification.
- Organizers may conduct validation of code and outputs to ensure compliance with rules.
- Each participant must present their project to the judging panel.
- The presentation should demonstrate functionality, creativity, user experience, and overall vibe/innovation.
- Judging criteria will be communicated before the event and may include creativity, technical implementation, user experience, originality, and alignment with the theme.
- The decision of the judges will be final
- Participants must follow ethical practices and fair play.

- Any form of cheating, plagiarism, misuse of AI tools, or unfair practices will result in immediate disqualification.
- Participants retain full ownership of their intellectual property.
- Organizers may request to use project details for promotional or showcase purposes.
- Participants must share their projects publicly after the competition (e.g., GitHub or portfolio platforms).
- Participants must follow a code of conduct that promotes respect, inclusivity, and professionalism.
- Harassment, discrimination, or inappropriate behaviorwill not be tolerated.
- The competition will offer prizes for First, Second, and Third positions only.
- No prizes will be awarded based on individual problem statements.
- Prizes will include cash rewards.

- **1.6 Procedure:**
- Participants register individually (Solo).
- Participants are seated and ready with their laptops.
- Event instructions are explained before starting.
- The problem statement/theme will be announced by volunteers.
- Participants begin coding after the start signal.
- The event continues for the given time duration.
- Participants submit their final code/project before the deadline.
- Submissions are evaluated by judges.
- Winners are declared based on performance.

1.7 Judging Criteria

- Correctness of solution
- Creativity and innovation
- Code quality
- Team collaboration
- Project UI
- Functionality
- Problem statement relevancy

1.8 Prizes:

- **1st Prize: Rs. 15K**
- **2nd Prize: Rs. 10K**
- **3rd Prize: Rs. 8K**

1.9 Outcome:

Participants enhance their coding skills, creativity, and problem-solving abilities in a collaborative and engaging environment. The event also promotes teamwork, adaptability, and confidence while encouraging innovative thinking in a fun and stress-free setting.
